

# Symposium on Deeptech Entrepreneurship: Opportunities and Gaps

Organised by Department of Entrepreneurship and Management

## About Symposium

Start-up and entrepreneurship are suggested to be the backbone of New India & are being considered to be the source of power to drive our nation into the future.

A prominent stream of entrepreneurship to allow our country to be self-reliant and self-dependent is entrepreneurship based on Science and Technology - Deeptech Entrepreneurship.

The growth story of deep tech entrepreneurship in India is aided by the availability of educated and trained technocrats who are able to identify problems and opportunities to be tackled through science and technology interventions. This symposium focuses on exploring the Opportunities & Gaps for Deeptech Entrepreneurship in 2022 through a keynote address and panel discussions.

The symposium aims to draw the attention of students specializing in science and technology, incubated start-up founders, and entrepreneurs at various stages of development to participate in the symposium.

## About IITH

Indian Institute of Technology Hyderabad, with its fast-paced growth in quality research and teaching has emerged as one of the top 10 engineering institutes in India in the QS-2021 World Rankings.

By prioritizing highly futuristic and novel areas like climate change and AI, IITH has the early movers' advantage of becoming a trendsetter in various other areas as well.

We are also in an advantageous position of becoming a pedestal of interdisciplinary research and teaching by synergizing the strengths of our faculty in science, engineering, liberal arts, management & design.

## About Department

IITH inaugurated the Department of Entrepreneurship and Management in 2020 with key focus to nurturing entrepreneurial mindset among the country's brightest minds.

The department has since been undertaking various activities such as Entrepreneurship Talk Series, Executive Development Programs and Courses on Deeptech Entrepreneurship.

The department aims to synergize innovation with entrepreneurial education among the IITH community as well as the nation.
